

# Willaura Primary School Cybersafety Policy

## Rationale:

In an endeavour to maintain a safe physical and emotional environment for staff and students, the use of the Information, Communication and Technologies (ICT) needs to be taken into consideration with respect to Cybersafety issues. The internet provides great benefits to teaching and learning programs and for the effective operation of the school. However, the presence of these learning technologies can also facilitate anti-social, inappropriate or even illegal behaviour and activities. This includes cyberbullying.

**Willaura Primary School is cognisant of the risks to child safety that exist in an online under the Child Safe Standards – Ministerial Order 870- effective from August 1, 2016 environment and will take all possible precautions to protect students from harm.**

*This policy should be read in conjunction with the eSmart Policy, Internet Usage Policy and ICT Acceptable Use Agreement.*

Willaura Primary School will develop and maintain effective cybersafety practices which aim to maximise the benefits of the internet to student learning whilst minimising and managing risks.

These cybersafety practices will aim to not only maintain a cybersafe school environment, but also address the needs of students and other members of the school community in receiving education about the safe and responsible use of present and developing information and communication technologies.

At the start of each school year, students will revisit the Willaura Primary School Cybersafety and will be required to sign the ICT Acceptable Use Agreement, together with their guardians, agreeing to abide by the rules about the appropriate use of ICT devices and internet use at Willaura Primary School, as set out in the eSmart Policy, Cybersafety Policy, Mobile Phone Policy, Social Media Policy, Child Safe Policy, Student Code of Conduct and ICT Acceptable Use Agreement.

Students have a responsibility to use all Information and Communication Technologies appropriately.

**ACCESS IS A PRIVILEGE NOT A RIGHT.**

The following are guidelines for acceptable and appropriate online behaviour:

- The Willaura Primary School name, logo and uniform must not be used in any way that would result in a negative impact for the school and its community. Students must not post photos of either themselves or other students which clearly identify them as members of the Willaura Primary School and should be aware of the potential repercussions of posting photos taken during any school sanctioned activity
- Members of the school community also have a responsibility to ensure that all online communications are in keeping with the school's expectations in relation to appropriate and respectful interactions with teaching and non-teaching staff. Students will not post inappropriate comments about individual staff members
- Cyberbullying includes, but is not limited to, the following misuses of technology: harassing, teasing, intimidating, threatening another person by sending or posting inappropriate and hurtful email messages, instant messages, text messages, phone

messages, digital pictures or images, or Website postings (including blogs and social media)

- Inappropriate use of ICT devices includes:  
The forwarding of private emails, messages, pictures, videos or otherwise inappropriately communicating personal or private information belonging to another person; logging on and pretending to be someone else; sending sexually explicit images (sexting) and intentionally excluding others from an online group. If this occurs either during school time or after school hours (where we believe its impact will constitute a breach of school policy), a student will be subject to disciplinary action. Students must be aware that in certain circumstances where a crime has been committed, they may also be subjected to a criminal investigation by police over which the school will have no control
- Students who feel that they have been victims of such misuses of technology should save and store the offending material on their computer, mobile phone or another device. They should then print a copy of the material and immediately report the incident to a teacher. Staff who may have been cyberbullied or threatened online should also immediately report such incidences to the Principal.
- All reports of cyberbullying and other technology misuses will be investigated fully and may result in a notification to the police. Willaura Primary School sanctions may include, but are not limited to, the loss of computer privileges, detention and suspension.
- Refer to the *Enhancing Online Safety for Children Act (July 2015)*
